

Chances are you have already given some thought to what you want for your retirement, including where you should live.

It's also likely that you have felt confused by all the options available today. It's no wonder! Choosing a retirement lifestyle can be an overwhelming process...unless you understand the critical differences between the many possibilities open to you.

That's why we're hosting a special presentation on **Senior Living Options** to introduce you to the variety of senior living possibilities available and how they differ from one another. This special event will answer your questions and provide a basis for you to compare and choose the type of retirement lifestyle that's right for you—now and in the future!

- What are the retirement options for your future?
- Why should you consider the benefits of a Life Plan community?
- How would life at StoneBriar at Burcham Hills benefit your peace of mind?
- What services and amenities are offered?
- What levels of care and assistance are available as needs change?

Come ask questions, meet others interested in **exceptional senior living** and gather important information about StoneBriar, which will include spacious new independent living residences featuring a variety of sizes and floor plans, high-end finishes and opportunities for customization, underground parking options, and on-site continuum of care should you ever need it. In addition, this independent living expansion will include a new entrance, lobby, and expanded amenity areas.

StoneBriar
at Burcham Hills®
